AD Enclosure - MT6 Section 2

- 1) "A" holds at the plastic curtain and "B" resets Interlock Box #1.
- 2) "A" holds at the plastic curtain while "B" searches the downstream section of the enclosure, behind the SWIC opening and resets Interlock Box #2.
- 3) "B" searches all around the Chambers and other assorted equipment to join "A".
- 4) "B" joins "A" and together they search the upstream section of the enclosure and proceed to the entrance at the west labyrinth.
- 5) "A" and "B" exit via the west labyrinth, checking on top of the C-Blocks and the fence by the porta-kamp.
- 6) "A" and "B" exit and reset Interlock Box #3.
